

BECK POND

T3 R5 BKP WKR, Somerset County
U.S.G.S. King and Bartlett Lake, Maine (7½')
and U.S.G.S. Spencer Lake, Maine (7½')

Fishes

Brook trout
Minnows
Blacknose dace
Creek chub

White sucker

Physical Characteristics

Area - 32 acres

Maximum depth - 26 feet

Principal fisheries: Brook trout

Temperatures:

Surface - 64°F

25 feet - 57°F

Beck Pond is located west of Bear Mountain. A short inlet enters the north end of the pond from nearby Bear Pond. Its outlet flows southwest into King and Bartlett Lake. The pond's shoreline is undeveloped.

Water quality in Beck Pond is good for coldwater gamefish. A wild brook trout population provides the fishery. Trout growth is slow with heavy competition for food and space.

Beck Pond is not accessible to the general public. A manned gate on the King and Bartlett Road east of Route 27 blocks access to the leased paper company land. The pond is open to fly fishing only in the summer and closed to ice fishing. See the lawbook for additional regulations.

Surveyed – August, 1951
